

SAPHAL SHERCHAN

SOFTWARE ENGINEER LEVEL I

SUMMARY

As a Software Engineer Level I, my primary focus is on developing software applications and solutions. I have a solid understanding of various programming languages and technologies, with a particular proficiency in Frontend Technologies like React.js and Next.js. I am constantly seeking opportunities to learn new tools and technologies to enhance my skill set. For the past 8 months, I have been working at Techxillence, a remote company. During my time there, I have actively contributed to the successful delivery of more than 5 projects. I am dedicated to producing high-quality code and continuously improving my abilities as a software engineer.
